- Running for County Council is another step to serve the people of Maui County.
- Like many of you, I like to take steps to improve our environment, by restoring our steam Flows, protect our native forest, our marine life, and the air quality we have come to except. Maui must be protect for invasive species both animal and plants.
- Homes and apartments for working people to buy **(200K-275K)** and rentals **(550-850.** a month) this will insure that working people in the retail, service, skilled professions and public sector so they remain on Maui and can raise their families.
- Smart growth with Infrastructure, water, parks, and schools a part of the Master Plan for Maui County. Focuses on the need to not only to catch-up but get ahead in these area. Development of new Water sources and conservation
- Make Maui the leader in Atonal fuel, renew energy, solar and wind energy sources. Our children future depends on this.
- Food that we can produce here in Maui County and helping our farms to grow.
- To keep Maui #1 as a world class destination we need to address these issues and look for different (non pollutant industries) to diverse our economic base.
